# new...

Our all new, exclusive,  
**Greenlite** radiation protection material.

## Save Your Back...

Half the weight of  
conventional lead aprons

## ...and the Earth

Not only 100% lead free,  
but a full .50mm  
between 60 to 120 kVp.

## Check out the difference!

HX lightweight lead is now included on all apron orders at no additional charge. New 100% lead free ultra lightweight "Greenlite" material can be ordered by adding "GL" to the part number for \$25.00 per apron.

### Comparison weight of a medium size Vest and Skirt apron

Standard Lead	HX Lightweight	Greenlite Lead Free	
15.9Lb	9.26Lb	8.01Lb	49% lighter than lead
7.18Kg	4.21Kg	3.64Kg	14 % lighter than HX

## Partners in Success

Order from Rad-Mart with complete confidence. If any product you purchase from us doesn't live up to your expectations, for any reason, simply return it for a full refund. We really don't think anyone can make it any easier than that. How can we make such an offer? We only sell the best products on the market, products that we test and that our customers have used for years so there's a track record. Once in awhile we get a customer that takes us up on our offer. They always end up becoming repeat customers because they find out we say what we mean and we mean what we say. Want to try an apron or a pair of glasses before you make your decision? No problem, we'll send you out a sample in a size that will fit you with zero cost to you. Your only obligation is to return it to us within thirty days. Tight budget a concern? Our everyday prices are always competitive because we include all the features other companies charge you extra for, but if you have a price quote from a competitor that's lower than us we'll be happy to meet it. For larger orders we will structure a plan that works, including pricing, payment terms or whatever it takes to make it work for you. We've been doing this successfully since 1989 and we are happy to provide you with a long list of satisfied customers. In fact, we'll just give you our entire customer list because all we have is satisfied customers. The bottom line is, we need you and we want you. So just tell us what we have to do to get you and keep you!

# Ordering is Easy...

## 1. Choose a style from the catalog

## 2. Choose your size from this chart

All our aprons are custom tailored to fit male and female frames. Use the information below to find the correct fit for you.

Male Frames				
	Small	Medium	Large	X-Large
Neck	14-15	15-16	16-17	17-18
Chest	34-36	38-40	42-44	46-48
Waist	28-30	32-34	36-38	40-42

Female Frames					
	X-Small	Small	Medium	Large	X-Large
Bust	33	34-35	36-38	39-41	42-45
Waist	25	26-27	28-30	31-33	34-36
Hips	35	36-37	38-40	41-43	44-47

Can't find your size in these charts? No problem! Just provide us with your chest, hip and waist measurements.

## 3. Choose your color(s)

					
104 NAVY	105 RED	108 BLUE	111 BURGUNDY	112 GRAY	114 BLACK
					
116 BLUE VINYL	117 TEAL	118 FUSHIA	119 PURPLE	120 DESERT CAMO	124 FLUORESCENT PINK
					
126 FLURO BLUE	129 HUNTER GREEN	140 SPLASH	150 ROYAL SEAL COTE	151 RED SEAL COTE	152 NAVY SEAL COTE
					
154 ORANGE	157 TEAL PLAID	159 HUNTER GREEN SEAL COTE	160 TEAL SEAL COTE	161 BURGUNDY SEAL COTE	164 SURF HAWAII
					
165 PURPLE PLAID	166 ZEBRA	167 CHEETAH	168 WORN JEANS	169 TRIBAL	170 GRAY VINYL
					
172 PUPPIES	174 LEATHER	175 HAWAIIAN	176 RAINBOW	178 AVACADO GEO	179 BLUE GUMBALL

Always check [www.radmart.com/colors](http://www.radmart.com/colors) for the latest colors

## 4. Choose your protection material

### Greenlight

The only 100% lead free light weight protection material. 14% lighter than HX-70 and 49% lighter than standard lead aprons yet still a full .50mm Pb of protection

### HX-70

The standard in lightweight .50mm Pb protection materials HX-70 is 33% lighter than standard lead products. Available exclusively from Rad-Mart as a standard feature.

## 5. Make your final decisions

Cartoons/Monograms? (see pages 11-14), Thyroid Collar? (see page 15)

## 6. Call us toll free and place your order: 1-800-260-6020,

fax it 818-225-7940, or order online at [www.radmart.com](http://www.radmart.com)

# Surgery Drop Front Protection Aprons

A unique apron designed specifically for use during surgical procedures. Worn between surgical scrubs and the sterile field, this apron can be removed by simply releasing the Velcro tabs. This apron provides the required protection during the radiological portion of the exam and is then removable without breaking the sterile field.

Double Welt pocket, shoulder pads, lightweight lead and choice of colors are all standard features included in our price!

SPLF-XL	Fits women's dress size 18-20
Custom - Send chest, waist and hip measurements	

## Female Vest and Skirt Aprons

Only our Vest and Skirt apron is designed especially for females. Our vest features increased side breast protection and narrower, foam padded shoulders for a high level of comfort, even during extended procedures. Our skirt is tapered for the best possible fit and includes our exclusive “hanging tabs” for easy storage on most all apron racks. Two piece configuration offers increased mobility and great weight distribution. Both the Vest and the Skirt are .25mm in the back with overlapping front panels that create a full .50mm of protection.

Single welt pocket on vest and two pockets on skirt, shoulder pads, lightweight lead and choice of colors are all standard features included in our price!

Part No.	Female Sizes
VASF-XS	Fits women's dress size 4
VASF-S	Fits women's dress size 6-8
VASF-M	Fits women's dress size 10-12
VASF-L	Fits women's dress size 14-16
VASF-XL	Fits women's dress size 18-20
Custom - Send chest, waist and hip measurements	

## Male Vest and Skirt Aprons

Only our Vest and Skirt apron is designed specifically to fit a man's frame, not simply adapted from the female version like other manufacturer's products. Vest features tailored neck and armhole openings for increased mobility, larger shoulder area for better weight distribution and foam padded shoulders for a the highest level of comfort, even during extended procedures. Our skirt features a “roomier” waist and less taper for the best possible fit and include our exclusive “hanging tabs” for easy storage on all apron racks. Two piece configuration offers increased mobility and great weight distribution. The Vest and Skirt are .25mm in back with overlapping front panels that create a full .50mm of protection.

Single Double Welt pocket on vest and two on skirt, shoulder pads, lightweight lead and choice of colors are all standard features included in our price!

Part No.	Male Sizes
VASM-S	Fits men's coat size 34-36
VASM-M	Fits men's coat size 38-40
VASM-L	Fits men's coat size 42-44
VASM-XL	Fits men's coat size 46-48
Custom - Send chest, waist and hip measurements	

## Elastic Back Female Vest and Skirt

Only our Vest and Skirt apron is designed especially for females. Our elastic back vest has all the same features as our regular model with the addition of a six inch wide elastic back panel to increase lumbar support and comfort. Our skirts are tapered for the best possible fit and include our exclusive “hanging tabs” for easy storage on all apron racks. Two piece configuration offers increased mobility and superior weight distribution. Both the Vest and the Skirt are .25mm in the back with overlapping front panels that create a full .50mm of protection.

Single welt pocket on vest and two pockets on skirt, shoulder pads, lightweight lead and choice of colors are all standard features included in our price!

Part No.	Female Sizes
EVASF-XS	Fits women's dress size 4
EVASF-S	Fits women's dress size 6-8
EVASF-M	Fits women's dress size 10-12
EVASF-L	Fits women's dress size 14-16
EVASF-XL	Fits women's dress size 18-20
Custom - Send chest, waist and hip measurements	

## Elastic Back Male Vest and Skirt

Only our Vest and Skirt apron is designed specifically to fit a man's frame, not simply adapted from the female version like other manufacturer's products. Our elastic back vest has all the same features as our regular model with the addition of a six inch wide elastic back panel for increased lumbar support and comfort. Our skirts feature a “roomier” waist and less taper for the best possible fit and include our exclusive “hanging tabs” for easy storage on all apron racks. Two piece configuration offers increased mobility and superior weight distribution. Both the Vest and the Skirt are .25mm in the back with overlapping front panels that create a full .50mm of protection.

EVASM-L	Fits men's coat size 42-44
EVASM-XL	Fit's men's coat size 46-48
Custom - Send chest, waist and hip measurements	

# Weight Relief Full Protection Aprons

Our exclusive design, the Weight Reliever apron was created by an R.T. to eliminate some of the common problems found in wraparound aprons. One piece front panel can't pop open unexpectedly. Special harness and closure system criss-crosses in the back to transfer weight from the shoulders. Cooler than conventional aprons.

Double Welt pocket, shoulder pads, lightweight lead and choice of colors are all standard features included in our price!

Part No.	Male Sizes
MWAM-S	Fits men's coat size 34-36
MWAM-M	Fits men's coat size 38-40

MWAF-XL	Fits women's dress size 18-20
Custom - Send chest, waist and hip measurements	

## Maternity Apron

Part No.	FRONT PROTECTION MODEL
MATS1	Tapered design. One size fits most

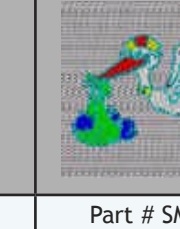

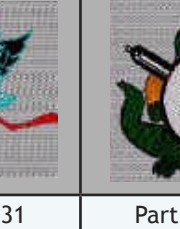

Designed specifically for use during pregnancy. Tapered front contains .50mm Pb equivalency with a special 1.0mm Pb equivalent band extending the full width of the apron between the Xyphoid process to approximately 8cm below the Symphis Pubis. This special band helps shield the fetus while reducing radiation exposure below the background environment level. Double Welt pocket, shoulder pads, lightweight lead and choice of colors are all standard features included in our price!

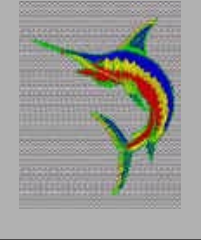

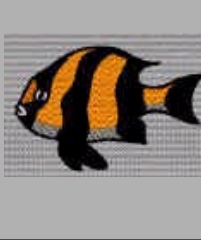

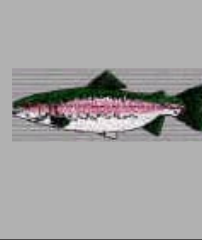

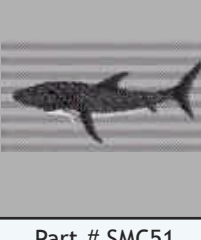

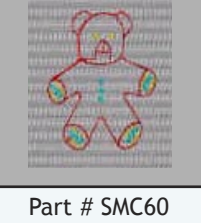

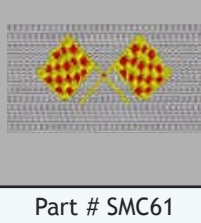

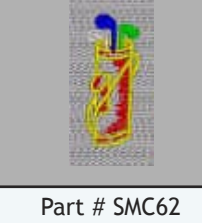

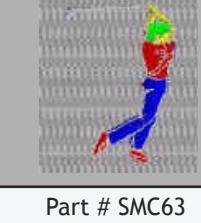

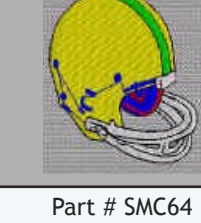

Part No.	FRONT PROTECTION MODEL
MAT-FW	Tapered design. One size fits most

All the same features as our front protection apron in a full wraparound apron with total front and back coverage.

**SPECIAL NOTE:** Always be sure to consult your Radiation Safety Officer for information about the dangers and effects of radiation and exposure during pregnancy.

Express Yourself with an affordable embroidered logo on your apron.

Choose from the small size that fits on the pocket (approximately 3" tall) or the large size that fits in the center of the apron (approximately 6" tall). To order just add the number of the logo from the list above to the apron part number and specify size. Don't see what you want? Let us put together a custom design from your artwork!

## Thyroid collar with edge trim

Our “one size fits all” fully adjustable standard thyroid collar features a comfortable fit, large protection area, and the easy on/easy off convenience of hook and loop fasteners. Available in any of our colors and trims to match your apron. All collars can be monogrammed for easy, quick identification. Can also be outfitted with our exclusive “KTC” option that attaches the collar to the apron with a strap and buckle system.

Model #	Description
TCV-S1	Standard thyroid collar with edge trim

## Thyroid collar without edge trim

Some say that without the edge trim found on the TCV model this NST thyroid collar becomes even more flexible. This is our most popular model and includes all the same great features, protection, comfort and adjustment as our model TCV thyroid collar. All collars can be monogrammed for easy, quick identification. Can also be outfitted with our exclusive “KTC” option that attaches the collar to the apron with a strap and buckle system.

Model #	Description
NST-S1	Thyroid collar without edge trim

## Scrubbles Apron Cleaner

Ever since nylon covered aprons were introduced to the market, we have been searching for the perfect apron cleaner. Our exclusive enzyme active formula “Scrubbles” is the result of our research. The first and only apron cleaning solution developed specifically to cleanse barium, blood and other common radiology related stains from your protective aprons. It really works! Simply spray it on, let it soak, brush, and “Scrubbles” gets the tough stains out! Available by the single bottle, case of twelve or gallon refill sizes.

Product #	Description
683550	16 ounce spray bottle of “Scrubbles” cleaning solution with scrub brush.
683555	12 pack of 16 ounce spray bottles of “Scrubbles” cleaning solution
683510	One gallon refill bottle of “Scrubbles”

## Black Belt Replacement Belts

Four sizes of replacement belts for your existing InFab “Black Belt” protective aprons. Each belt comes complete with attachment snaps which match your existing apron and are exact replacements.

Part #	Description
257879	Extra Small factory replacement "Black Belt" with snaps
257880	Small factory replacement "Black Belt" with snaps
257881	Medium factory replacement "Black Belt" with snaps
257882	Large factory replacement "Black Belt" with snaps
257883	X-Large factory replacement "Black Belt" with snaps

## Attached Thyroid Collar

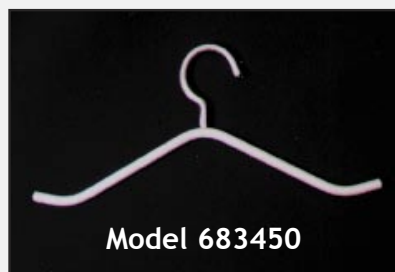

Are you constantly searching for thyroid protection when you need it? Then perhaps you may want to consider attached collars for your apron. Collars attach to aprons with a unique strap and buckle system so they stay with the apron but can also be removed easily if desired. We also offer the convenience of sewn on thyroid collars that are a permanent part of the apron and are similar to a half turtleneck. To order add part number to apron choice.

Part #	Description
KTC	Thyroid collar with buckle and strap attachment
TC	Sewn on "half" turtleneck style thyroid collar

## Attached Protective Sleeve

For added protection of the arm and shoulder, consider a .50mm Pb equivalent attached sleeve. Available on any InFab apron model in your choice of a removable snap on, permanent sewn on or velcro attached configuration.

Part #	Description
SLV-R	Snap on sleeve (right hand sleeve)
SLV-L	Snap on sleeve (left hand sleeve)
SOS-R	Sewn on sleeve (right hand sleeve)
SOS-L	Sewn on sleeve (left hand sleeve)
VSL-R	Velcro attached sleeve (Right hand)
VSL-L	Velcro attached sleeve (Left hand)

## Deluxe Apron Hanger

Unlike other models on the market our deluxe apron hanger is engineered and custom manufactured to securely hold a radiation protection apron. Nothing else looks like it and nothing else works as well. Constructed from heavy gauge steel tube and powder coated for a long lasting finish. Each hanger loop is outfitted with a special “no slip” tubing shield so the hanger does not slide or mar the support arm.

Part #	Description
683450	Deluxe custom apron hange

## Buckle Closure Patient Protection Half Aprons

A popular half apron style, featuring easy on/easy off convenience in a comfortable, patient friendly design. This model features heavy duty two inch wide webbing straps and heavy duty buckle closures. If clothing snags or closure failure have been a problem, the ASB with it's two inch wide belt and buckle closure is an excellent, easy to use alternative to traditional velcro models. Maximum patient protection, comfort and ease of use. Three sizes to fit a range of patients or custom sizes on request. Available in your choice of colors. .50mm lead equivalency is standard.

Model #	Size	Description
ASB-S1	12" x 24"	1/2 apron with buckle closure
ASB-M1	18" x 24"	1/2 apron with buckle closure
ASB-L1	24" x 24"	1/2 apron with buckle closure

## Velcro Closure Patient Protection Half Aprons

Velcro Closure Patient Protection Half Aprons Another one of our popular half apron styles featuring easy on/easy off convenience in a comfortable, durable, patient friendly design.

The HSV uses the traditional hook and loop "Velcro" type closures attached to wide two inch webbing straps for easy on/easy off convenience and a positive, secure closure. Maximum patient protection, comfort and ease of use. Three sizes to fit a range of patients or custom sizes on request. Available in your choice of colors. .50mm lead equivalency is standard.

Model #	Size	Description
HSV-S1	12" x 24"	1/2 apron with velcro closures
HSV-M1	18" x 24"	1/2 apron with velcro closures
HSV-L1	24" x 24"	1/2 apron with velcro closures

## Patient Protection *Mini* Apron Set

Purchase these as a set or order the individual aprons and the rack as separate units to suit your specific requirements. Aprons come in four sizes, from large adult to infant and are .50mm Pb equivalent. Infab's exclusive belt with buckle closure eliminates the uncomfortable, sloppy fit associated with outdated metal band fasteners. Space efficient rack is precision machined from solid aluminum, powder coated and is only 13" wide and extends a mere 8" from the wall.

Product #	Description
683400	Storage rack with set of four aprons
683401	8" W x 10" L Toddler apron only
683402	12" W x 12" L Child's apron only
683403	14" W x 16" L Average adult apron only
683404	16" W x 20" L Large adult apron only

# Lead Lined Brassiere

A specialty shielding product for radiation protection of the mammary glands. Designed to be used as patient protection shielding or can be worn under a lead apron for additional protection for the radiographer. .50mm Pb equivalent.

Part #	Description
BRA-MI	Radiation Protection Bar

Model 684120

# Female Ovarian Shield Set

A set of the three most popular sizes of shields designed especially for ovarian procedures. Each of the shields is a full 1.0mm lead equivalent to provide the maximum protection to your patient. Easy to use and explain to your patient. Each one of the three shields is nylon covered for durability and to easily wipe clean after each use.

Part #	Description
684120	Complete set of 3 female shields

# Gonad Shields

A complete set of three of the most popular gonad shield sizes. The adult size comes complete with handy one inch tie straps for easy fastening around the waist. The complete set also contains youth and infant sizes. Each shield is a full .50mm Pb equivalent. Easy to use, inexpensive and washable.

Model SLV-L

Part #	Description
PGS-S1	3" x 5" Infant size gonad shield
PGS-M1	6" x 7" Youth size gonad shield
PGS-L1	7" x 9" Adult size gonad shield with ties
PGS-X1	Set of 3 shields/Infant/Youth/Adult

Model GND-L1

# Triangular Gonad Shields

A complete set of three of the most popular gonad shield sizes. The adult size comes complete with handy one inch tie straps for easy fastening around the waist. The complete set also contains youth and infant sizes. Each standard shield is a full .50mm Pb equivalent. Easy to use and washable.

Part #	Description
GND-S1	6" Triangle Infant size gonad shield with ties
GND-M1	9" Triangle Youth size gonad shield with ties
GND-L1	7" x 9" Triangle Adult size gonad shield with ties
GND-X1	Set of 3 shields/Infant/Youth/Adult with ties

## Deluxe 5 Arm Apron Rack

Our deluxe apron racks store five aprons and provide immediate access to individual aprons. Heavy duty, coated steel mounting bracket and arms with nylon bushings for a lifetime of trouble free service. Racks fold flush to wall for storage and swing out for easy access. Racks can be mounted side by side to store up to ten aprons

Part #	Description
683100	Deluxe 5 arm apron rack (right hand fold)
683101	Deluxe 5 arm apron rack (Left hand fold)

## Deluxe Mobile Apron Rack

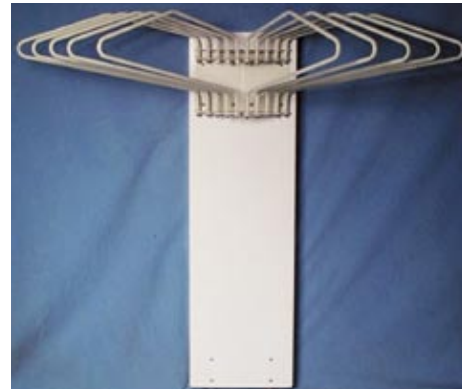

Our high quality mobile apron rack is built from heavy gauge steel and then powder coated for an attractive, durable and long lasting finish. Hospital grade casters are always smooth rolling, even under heavy loads. Holds up to ten front or full protection aprons. Can be fitted with our optional vest and skirt adapters to easily store your two piece aprons. Also available with a rack to store up to six pair of gloves. Shipped assembled and ready to be put into service.

Part #	Description
683407	Deluxe mobile 10 arm apron rack
683408	Deluxe rack with attached glove rack

## Deluxe Wall Tower Apron Rack

Our heavy duty wall tower is designed to handle the daily demands of even the toughest hospital environments. Constructed of heavy gauge steel and then powder coated to resist scratching and retain its good looks for years to come. Easy to install utilizing the hardware provided. Requires only minimal space of 18" wide x 63" tall and extends from the wall only 26" when apron rack arms are fully extended. Stores up to 10 full wrap or Vest and Skirt aprons or 10 standard aprons.

Part #	Description
683115	Wall tower without racks
683415	Wall tower with apron racks included

## Vest and Skirt Adapter Bracket

A handy bracket that easily fastens to our 5 arm apron rack and allows a vest and skirt to be hung properly. Comes complete with everything you need to install in minutes. Up to 5 adapters can be installed on a single 5 arm apron rack.

Part #	Description
683000	Adapter for hanging vest and skirt aprons

## Budget Saver Wall Mounted Rack

The Budget Saver wall mounted ten arm apron rack is the perfect system when mobility is not required. Easily mounts to your wall. Provides storage for up to ten front or full protective aprons or any combination of the two. This rack is also ideal for storing two piece vest and skirt type aprons when our optional skirt adapters are utilized.

Model #	Description
683429	Budget Saver wall mount

## Mini Mobile Apron Rack

Our high quality “mini” mobile apron rack is built from heavy gauge cold rolled steel and then powder coated for an attractive, durable, long lasting finish. Genuine Du-Pont Delrin wheels are always smooth rolling, even under heavy loads, because they will not flatten out like traditional rubber wheels. Holds up to six front or full protection aprons, a pair of lead gloves and two pairs of radiation protection glasses. Compact size with an overall height of 78”, an overall width of just 23” and a depth of 24”. Perfect for any room where available space is a problem. Aprons and other accessories available separately.

Model #	Description
683418	Mini mobile apron rack only
683419	Mini mobile rack with six hangers

## Budget Saver Mobile Apron Rack

Introducing our all new, heavy duty, economically priced mobile apron rack. Constructed from heavy gauge steel and then powder coated for years of trouble free service and excellent appearance. Durable, hospital grade casters for ease of movement. Conveniently stores up to ten full or front protection aprons. Will also store up to ten complete vest and skirt aprons with our optional skirt adapter brackets. When only the highest quality products will do, but your budget is tight, our “Budget Saver” mobile rack is the solution. Count on us to provide the products you need with prices that make sense in today’s budget sensitive environment. Now you can get what you want instead of settling for less!

Product #	Description
683427	Budget Saver mobile 10 arm apron rack
683428	Budget Saver mobile 10 arm apron rack with glove rack

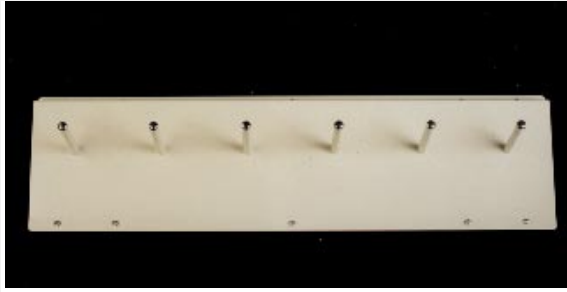

## Patient Transfer Device

Our inexpensive, smooth surfaced high quality patient transfer boards are manufactured from the highest quality 3/16 stress relieved polyethylene plastic for ease of movement and years of trouble free service. Lightweight, yet strong and durable. Anti static and completely radiolucent so that your patients can be radiographed even while the board is still in place. Includes two sets of wrist straps for easy transfers.

**AVAILABLE IN YOUR CHOICE OF 18" OR 22" WIDE MODELS. ALSO AVAILABLE WITH STORAGE RACK.**

The Infab Patient Transfer Device can help prevent the possibility of debilitating back injury and make transferring patients from gurney to table and back again a snap. Large hand holds and one inch wide wrist straps insure a firm, positive grip. Anti static, thin, yet strong plastic board slides easily from surface to surface.

Model #	Description
PTD-18	3/16 x 18 W x 72 L transfer device
PTD-22	3/16 x 22 W x 72 L transfer device
683399	Storage rack for all patient transfer devices

## Six Peg Apron Rack

Now you can store up to six aprons on these quality built yet inexpensive peg style apron racks. Constructed of heavy gauge steel plate and tube and electro static powder coated for long life. Aprons slide off and on rack with ease but won't slip off rack when stored due to unique tilted storage bars. Requires minimal space and mounts to existing walls quickly and easily without the need for any special tools.

Part #	Description
683410	Six (6) peg apron storage rack

## Eight Peg Apron Rack

Store up to eight front protection aprons or four full aprons on this quality built yet inexpensive peg style apron rack. Heavy gauge steel plate and tube. Electro static powder coated for long life. Takes minimal space. Mounts quickly and easily without special tools.

Part #	Description
683411	Eight peg apron rack

## Protective Accessories Rack

A handy storage unit for two or more aprons, a pair of glasses and a pair of lead gloves. Mounts quickly and easily to any wall and requires a space only 18" wide. The rack extends a mere 4.5" from the wall, yet stores all your protective accessory needs. This unit contains no sharp edges that might tear clothing, puncture skin or aprons, and is perfectly suited to small areas where space is at a premium. Powder coated heavy steel construction for a lifetime of trouble free service.

Part #	Description
683102	Protective accessories storage rack only

## Apron & Glove Combo Rack

Quick, convenient storage for a single apron and a pair of lead gloves in a sturdy, compact, inexpensive unit. Mounts quickly and easily to most walls without the need of special tools. Heavy gauge steel mounting plate and half inch outside diameter tubing are electro static powder coated for a lifetime of trouble free service.

Part #	Description
683430	Apron and glove combination rack

## Gold Frame lead glasses

An inexpensive way to get the radiation protection you need, in a comfortable, fully adjustable, durable pair of glasses. “Gold Frames” are lightweight. Features include a padded nose bridge and our exclusive FDA and ANSI approved High X70 shatter resistant lead glass lenses.

Model #	Description
683200	.25mm Pb glasses Regular
683210	.50 mm Pb glasses Regular
683200P	.25 Pb glasses Prescription
683210P	.50mm Pb glasses Prescription
683200BF	.25mm Pb glasses Bifocal
683210BF	.50mm Pb glasses Bifocal

## Premium Wraparounds

An inexpensive way to get the radiation protection you need, in a comfortable, fully adjustable, durable pair of glasses. “Gold Frames” are lightweight. Features include a padded nose bridge and our exclusive FDA and ANSI approved High X70 shatter resistant lead glass lenses.

Model #	Description
683203	.25mm Pb wraparound Regular
683213	.50mm Pb wraparound Regular
683203-P	.25mm Pb wraparound Prescription
683213-P	.50mmPb wraparound Prescription
683203-BF	.25mm Pb wraparound Bifocal
683213-BF	.50mm Pb wraparound Bifocal

## Classic Gold Sideshields

Introducing our all new deluxe wire frame glasses with attached sideshields. These glasses are the lightest weight side shield types available, fully adjustable and feature a padded nose bridge.

Model #	Description
683236	.50mm Non prescription
683236-BF	.50mm Bi-Focal prescription
683236-SV	.50mm Single vision prescription

All glasses include a custom carrying case. For prescription glasses please use order form on page.

## Cyberflex Lead Glasses

At last, an exciting and advanced frame design that incorporates all the added advantages of an adjustable temple bar length, oversized protective lens area and splash protection at an affordable price. For added protection order with the optional .50mm Pb side shields.

Model #	Description
683206	.50mm Cyberflex Regular
683206-P	.50mm Cyberflex Prescription
683206-BF	.50mm Cyberflex Bi-focal
683206S	.50mm Cyberflex w/side Regular
683206S-P	.50mm Cyberflex w/side Prescription
683206S-BF	.50mm Cyberflex w/side Bi-focal

## Flex-Fit Lead Glasses

Here's a modern style frame that combines a lighter weight lead lens mounted in an ultra lightweight frame splash protection and optional leaded side shields

Model #	Description
683208	.50mm Pb "Flex-Fit" Regular
683208-P	.50mm Pb "Flex-Fit" Prescription
683208-BF	.50mm Pb "Flex-Fit" Bi-Focal
683208S	.50mm Pb w/side Regular
683208S-P	.50mm Pb w/side Prescription
683208S-BF	.50mm Pb sideshield Bi-Focal

## Smoke Tint Lead Glasses

Introducing our new high quality glasses featuring radiation and splash protection in a single unit. Oversize High-X70 leaded lenses provide maximum front radiation protection. Upper, lower and side splash protection is built into each pair. Frames have adjustable length side arms and ratchet hinges for a perfect "non-slip" fit and are easily adjusted.

Model #	Description
783217	.50mm Pb/Smoke Tint/Regular
783217-P	.50mm Pb/Smoke Tint/Prescription
783217-BF	.50mm Pb/Smoke Tint/Bifocal
783218	.25mm Pb/Smoke Tint/Regular
783218-P	.25mm Pb/Smoke Tint/Prescription
783218-BF	.25mm Pb/Smoke Tint/Bifocal

All glasses include a custom carrying case. For prescription glasses please use order form on page.

## Incredibles Lead Glasses

These high impact acrylic frames are extremely lightweight yet very strong and durable. Each pair includes a “built in” retaining strap and padded temple bars. Every pair also features our exclusive FDA and ANSI approved High X70, .50mm lead equivalent, shatter resistant lead glass lenses. Also available in your choice of single vision or bi-focal prescriptions.

Model #	Description
683260	"Incredibles" glasses Regular
683260-SV	"Incredibles" glasses Prescription
683260-BF	"Incredibles" glasses Bifocal

## Deluxe Side Shield Lead Glasses

For the female Doctors and Techs we are proud to introduce this new, elegant, stylish frame design. .30mm side shields combined with .50mm front lenses offer maximum protection. Features include an adjustable silicone nose pad for increased comfort.

Model #	Description
683250	.50mm Pb "Deluxe" Regular
683250-P	.50mm Pb "Deluxe" Prescription
683250-BF	.50mm Pb "Deluxe" Bi-Focal
683250-TF	.50mm Pb "Deluxe" TriFocal

## Full Field Goggles

Finally there is an answer to the need for splash and radiation protection while still wearing your own pair of prescription glasses. Our model 783170 goggles provide a full .35mm of front lens lead protection. Comfortable to wear with plenty of adjustment and designed to be “fog free”. One piece lens for optimum visibility. Shatterproof lead acrylic for your safety.

Model #	Description
783170	.35mm Pb "Full Field" goggles

All glasses include a custom carrying case. For prescription glasses please use order form on page.

## Jarrood Style Lead Glasses

Beautifully handcrafted frames with oversized front lenses and precision machined lead acrylic side shields combine to make these the best looking and most functional protective eye wear available. Front lenses are .50mm Pb equivalent for maximum protection. Side shields are .35mm for outstanding protection from side scatter. Adjustable head band is included with each pair for a secure fit.

Model #	Description
783270	Jarrood Goggles Regular
783270-P	Jarrood Goggles Prescription
783270-BF	Jarrood Goggles Bifocal

## Clip-On Lead Glasses

Convert your regular glasses into a pair of radiation protection glasses in a matter of just seconds with our universal fit "clip-on" style radiation protection glasses. High quality wire frames provide a large protective lens area. These units adapt easily to most types of commercially available eyeglass frames. Shipped from stock in your choice of .25mm or .50mm Pb lenses.

Model #	Description
683202	.25mm Pb clip on glasses
683212	.50mm Pb Clip on glasses

## Glasses Cleaning Kits

Our exclusive radiation protective glasses cleaning kit was designed specifically to clean leaded lenses. The cleaner is both non abrasive and doubles as a defogger. This kit includes a mini lens size chamois and our specially formulated lens polish and protectant. Perfect for all glasses.

Model #	Description
683520	Radiation protection eyeglass cleaning kit

## Glasses Repair Kit

A handy kit which includes a screwdriver set and assortment of small screws for repairing side hinges, nose bridges and lens clamps. Our kit has everything you need to get your glasses back into shape.

Model # Description

Model #	Description
683527	Radiation protection eyeglass repair kit

## Glasses retaining strap

Prevent your glasses from slipping off your face during a procedure, plus it's a handy and safe way to store them around your neck when not in use. Available from stock in black only

Model #	Description
683525	Eyeglass retaining strap

# Maxi-Flex 5 Finger Lead Gloves

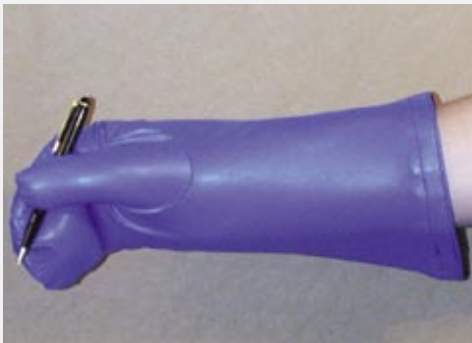

Superior manual dexterity in the most flexible .50mm Pb equivalent gloves on the market. Inner cores are one piece and precision molded for a great fit, highly consistent lead equivalence and maximum flexibility. Our special glove liners are removable, washable and replaceable. The outer covers are durable, expanded vinyl. Available from stock in blue, gray or burgundy cover

Model #	Description
683300-112	5 finger gloves/pair/gray
683300-111	5 finger gloves/pair/burgundy
683300-108	5 finger gloves/pair/blue
683306	5 finger glove replacement liners
683307	5 finger glove replacement covers

# Maxi-Flex Lead Mittens

The most flexible, comfortable radiation protection mitten on the market. Precision molded one piece cores are a full .50mm Pb lead equivalency. Tough, durable vinyl outer coverings are available in 3 great colors. Inner liners are removable, washable and replaceable. The perfect way to insure your hands and lower forearms are fully protected.

Model #	Description
683303-112	Mittens/15" length/pair/gray
683303-111	Mittens/15" length/pair/burg

# Radiation Reduction Gloves

The perfect balance of high sensitivity with maximum radiation protection is what we have achieved with our Ultra Flex, *LATEX FREE* radiation reduction gloves. As much as twice the radiation reduction as some competitors products without sacrificing any of the tactile feel of the glove Reduces 30% of direct beam radiation transmission at 100 KvP. Each pair is packed in a sterile pouch. Shipped from stock in sizes 6.5 through 9 and all 1/2 sizes in between. No minimum order requirement.

Model #	Description
683310	Size 6.5 radiation reduction gloves
683315	Size 7 radiation reduction gloves
683320	Size 7.5 radiation reduction gloves
683325	Size 8 radiation reduction gloves
683330	Size 8.5 radiation reduction gloves
683335	Size 9 radiation reduction gloves

# RFB Radiation Protection Gloves

A low cost alternative to our premium radiation protection gloves above, the all new RFB glove offers superior protection with an economical price. Safely reduces 42% of the direct beam at 100 KvP and 63% at 80KvP. Our anatomically correct design reduces hand fatigue and natural dry rubber minimizes irritation. Each pair of gloves is packed sterile and are powder free for easy on/easy off convenience. Gloves can be re-sterilized with ETO gas numerous times. Designed by a Physician for Physicians and perfect for all procedures.

Model #	Description
683310-L	Size 6.5 radiation reduction gloves
683315-L	Size 7 radiation reduction gloves
683320-L	Size 7.5 radiation reduction gloves
683325-L	Size 8 radiation reduction gloves
683330-L	Size 8.5 radiation reduction gloves
683335-L	Size 9 radiation reduction gloves

## Tall Mobile Barrier

For those procedures where an extra large viewing area is desired we are pleased to introduce our tall mobile protection barrier. A full 36" wide x 60" tall clear lead glass viewing panel lets you see everything, top to bottom. The optically clear, shatter proof, Lexan encased viewing panel provides a full 2.0mm lead equivalency of radiation protection, more than enough to protect you from intense scatter radiation, even at 150kVp. The small opaque bottom panel and lead vinyl skirt insure head to toe protection.

*Our protective mobile barriers are 100 percent made in the U.S. Unlike competitors models that utilize imported materials, our barriers are fabricated in our Camarillo, CA plant and use genuine, ultra high quality, optically clear precision lead glass that is both impact and shatter resistant. Best of all, our barriers are much less expensive than competitors models so you can get the protection you need at a price that fits your budget.*

Model #	Description
683476	80" high x 36" wide mobile barrier with 60" high x 36" wide lead glass window

## Deluxe Mobile Barrier

Our all new, revolutionary design concept utilizes a full 2.0mm lead equivalent glass panel sandwiched between shatter proof outer acrylic panels for superior optical clarity and the maximum possible protection. Heavy gauge, powder coated steel frame, hospital grade casters and easy to clean "Sintra" plastic opaque panels combine to make these units as durable as they are good looking. Available from stock in a wide array of barrier and window sizes. Shipped fully assembled. Simply uncrate and put into use!

*Our protective mobile barriers are 100 percent made in the U.S. Unlike competitors models that utilize imported materials, our barriers are fabricated in our Camarillo, CA plant and use genuine, ultra high quality, optically clear precision lead glass that is both impact and shatter resistant. Best of all, our barriers are much less expensive than competitors models so you can get the protection you need at a price that fits your budget.*

Model #	Description
683484	65" high x 36" wide mobile barrier with 24" high x 36" wide lead glass window

## Shorty Mobile Barrier

Our exclusive specialty barrier, the “Shorty” is the perfect solution for Nuclear Medicine studies or any procedure that does not require a taller product. With an overall height of just 48” and a width of 30” this compact barrier still provides the radiation protection capabilities of it’s bigger brothers. Full 2.0mm Pb equivalent viewing window is 18” tall and 30” wide. Opaque base is 1.5mm Pb equivalent covered in “Sintra” plastic for easy cleanability. Hospital grade casters and bottom skirt complete the package.

*Our protective mobile barriers are 100 percent made in the U.S. Unlike competitors models that utilize imported materials, our barriers are fabricated in our Camarillo, CA plant and use genuine, ultra high quality, optically clear precision lead glass that is both impact and shatter resistant. Best of all, our barriers are much less expensive than competitors models so you can get the protection you need at a price that fits your budget.*

Model #	Description
683458	46” high x 30” wide mobile barrier with 24” high x 30” wide lead glass window

## Wide Mobile Barrier

Enough room to accommodate two people at the same time, this barrier offers a full 48” wide x 36” tall 2.0mm lead glass viewing window. The overall unit is 74” tall and 48” wide. The solid opaque lower panel provides a full 1.5mm of lead equivalency, more than enough to offer maximum scatter radiation attenuation even at 150kVp. Despite it’s size and extra high level of protection this barrier is easy to maneuver thanks to the big four inch diameter hospital grade casters and it’s dynamic weight balancing.

*Our protective mobile barriers are 100 percent made in the U.S. Unlike competitors models that utilize imported materials, our barriers are fabricated in our Camarillo, CA plant and use genuine, ultra high quality, optically clear precision lead glass that is both impact and shatter resistant. Best of all, our barriers are much less expensive than competitors models so you can get the protection you need at a price that fits your budget.*

Model #	Description
683482	74” high x 48” wide mobile barrier with 36” high x 48” wide lead glass window

## Small Window Mobile Barrier

An inexpensive alternative to our large viewing area models our small window protective barrier provides a 12" x 12" window with a full 2.0mm lead equivalency of radiation protection. The solid core opaque barrier portion measures 52" wide x 74" high and provides a full 1.5mm lead equivalency of radiation protection. Covered in tough, durable "Sintra" plastic for years of trouble free service and easy cleanability. Large 4 inch diameter hospital grade casters, with brakes, make these units easy to maneuver and position.

*Our protective mobile barriers are 100 percent made in the U.S. Unlike competitors models that utilize imported materials, our barriers are fabricated in our Camarillo, CA plant and use genuine, ultra high quality, optically clear precision lead glass that is both impact and shatter resistant. Best of all, our barriers are much less expensive than competitors models so you can get the protection you need at a price that fits your budget.*

Model #	Description
683465	74" high x 52" wide mobile barrier with 12" high x 12" wide lead glass window

## Standard Mobile Barrier

Our most popular mobile protective barrier, this unit features a 30" wide x 24" tall 2.0mm lead equivalent viewing window. With overall dimensions of 75" tall and 30" wide this is the perfect single user barrier. 4" diameter hospital grade swivel casters make this unit easy to maneuver even in confined quarters. Locking brakes on two wheels provide secure positioning and prevents accidental movement during procedures.

**Our exclusive "base bottom" curtain insures complete radiation protection from head to floor.**

*Our protective mobile barriers are 100 percent made in the U.S. Unlike competitors models that utilize imported materials, our barriers are fabricated in our Camarillo, CA plant and use genuine, ultra high quality, optically clear precision lead glass that is both impact and shatter resistant. Best of all, our barriers are much less expensive than competitors models so you can get the protection you need at a price that fits your budget.*

Model #	Description
683460	75" high x 30" wide mobile barrier with 24" high x 30" wide lead glass window

## Solid Panel Mobile Curtain

Our adjustable height protection curtains feature a full 24" wide by 24" tall lead vinyl curtain with vertical adjustment between 36" and 56" above the floor. Easy turning adjustment knob locks the curtain firmly in place at the height you select. Our 5 caster base design helps to stabilize the unit allowing smooth and easy maneuvering, even in tight quarters.

Model #	Description
683564	.25mm lead equivalency solid panel adjustable height mobile curtain
683565	.50mm lead equivalency solid panel adjustable height mobile curtain
683566	.75mm lead equivalency solid panel adjustable height mobile curtain
683567	1.0mm lead equivalency solid panel adjustable height mobile curtain

## Split Panel Mobile Barrier

All the same features found in our solid panel mobile curtain, but with overlapping flaps of lead vinyl material. Panels can be separated for insertion of an I.V. tube or to accommodate any equipment which may need to protrude from the curtains protective field. Full 24" x 24" curtain area and adjustable height from 36" to 56".

Model #	Description
683564-S	.25mm lead equivalency split panel adjustable height mobile curtain
683565-S	.50mm lead equivalency split panel adjustable height mobile curtain
683566-S	.75mm lead equivalency split panel adjustable height mobile curtain
683567-S	1.0mm lead equivalency split panel adjustable height mobile curtain

## Radiation Protection Curtain

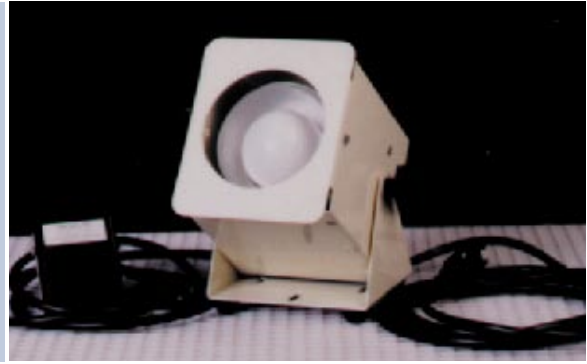

Our line of radiation protection curtains are custom manufactured to your exact specifications utilizing the same materials and expert craftsmanship found in our aprons. Available in any of our nylon or vinyl colors and trims to match your decor. Nylon track glides and heavy duty carriers provide ease of operation and years of trouble free use. Curtain track can be easily curved to fit around obstacles and special room requirements. The perfect solution for areas requiring a radiation protection barrier but where a solid wall is not practical or desirable.

Our line of custom radiation protection curtains can be built to accommodate any request. From large room dividers to small table side radiation shields, we can manufacture whatever you need. Also, be sure to check out our complete line of stock protective curtains, mobile barriers, table side curtains and accessories

Model #	Description
683650	.25mm Pb curtain w/track glides (per sq. ft)
683660	.50mm Pb curtain w/track glides (per sq. ft)
683670	.75mm Pb curtain w/track glides (per sq. ft)
683675	1.0mm Pb curtain w/track glides (per sq. ft)
683680	Mounting track for curtains (per linear foot)

# Brite View

The all new “Brite View” by InFab is CSA approved and meets or exceeds all UL certifications. Available with tilt mount or swivel mount base. Can be used as a desk top unit, attached to a wall or to an illuminator. Standard features include a foot operated rheostat switch as well as a hand switch for a “constant on” option. Available from stock for immediate delivery.

## Don't just use any old bulb for bright spot illuminators

Our genuine replacement bulbs have no logo or identification marks on the end of the bulb that can cause an artifact and possibly result in a false reading. We have inexpensive replacement bulbs for all units, in stock, and ready for immediate delivery.

Model #	Description
683800-V	Brite View with variable intensity foot switch and tilt mount base
683820-V	Brite View with variable intensity foot switch and swivel mount
683830-V	Brite View export model (220V, 50Hz)
683801	75 watt replacement bulb (1 each)
683802	75 watt replacement bulb (pack of 6)

*Now available in your choice of  
3 different lead equivalencies*

Half the cost of lead acrylic

Our Radiation Protection Glass features superior optical clarity and protection levels, reduced weight for easier installation and handling and a virtually scratch free surface. Available “pre cut” in a large number of stock sizes as shown on the following page or we can easily custom cut to any size you require up to 48” wide and 96” long. 2.0mm lead equivalent sheets are always in stock for immediate delivery and we offer the fastest turnaround times on higher lead equivalency sheets. Best of all, you can get the level of protection you need for half the cost of lead acrylic!

## Open Top Cassette Cart

Solid steel plate construction and aircraft quality rivets make these the most sturdy units on the market. Rounded corners on the unit and divider panels prevent accidental punctures. Reinforced rubber encases the top edge for increased safety. Four inch rubber hospital grade casters roll smoothly and hold up even under heavy loads. Two of the casters are equipped with locking brakes to insure the cart stays in place when stopped. Protective bumpers on all top and bottom corners prevent damage to the units and facility walls. Ample size carries a wide variety of cassettes yet is compact enough to be “out of the way”. Handy bonus storage bin for film or markers is included at the bottom of the cart

*Our complete line of cassette and film carts have been carefully engineered to provide you with a product that works as well as it looks. Features like inclined shelves insure your items stay in the cart, electro static powder coating to keep the units looking great even after years of service, and plenty of room and shelf space to store the items you need right at your fingertips.*

Model #	Description
660001	Cart 22" x 22" x 41" tall (with dividers)

## Open Top Cassette Cart w/o Dividers

Solid steel plate construction and aircraft quality rivets make these the most sturdy units on the market. Rounded corners prevent accidental punctures. Reinforced rubber encases the top edge for increased safety. Four inch rubber hospital grade casters roll smoothly and hold up even under heavy loads.
